

MENTORS

"The JA Academy is yet another example of Junior Achievement's commitment to empowering young people to take control of their economic success. I'm extremely excited about our new Academy and the tremendous opportunities for our students. After all, economic uncertainty and increasing global competition in recent years make it the right time to prepare our students to become more entrepreneurial-minded, while enhancing their ability to think and reason more rationally. The JA Academy produces American leaders equipped to make an impact!"

Share Your Expertise with Tomorrow's Leaders

JA ACADEMY FOR LEADERSHIP & ENTREPRENEURSHIP

What do you have in common with a high school student? More than you might think. The students at the JA Academy for Leadership & Entrepreneurship are hard-working, community-minded leaders. And, like you, they have a vision for the future.

As a mentor, you can help students at the JA Academy realize their potential and achieve their goals by sharing your time and professional experience. Because the school's curriculum is based on real-world experiences, you have a distinct opportunity to help students make the connection between their studies and the skills necessary for future success.

This innovative magnet high school, founded and directed by Junior Achievement of Central Florida and Orange County Public Schools, features an innovative, "full immersion" curriculum that integrates leadership and business concepts into every aspect of learning while promoting the free enterprise system.

GUIDING STUDENTS ON THE PATH TO SUCCESS

At JA, we offer flexible scheduling options that make it easy for you to volunteer your time and build positive relationships with our students. And, with hands-on experiences such as internships, job shadowing, field trips, volunteering and guest lectures, students are engaged and excited about their school work.
