Today we talked about the many different ways you can pay for goods and services: cash, check, credit card, debit card or electronic payments.

What did you learn about the different forms of payment and how will this help you in your future?
**Cash** is money in the form of bills or coins. Take cash out of your checking or savings account to buy goods or services. Visible or invisible?

A **debit card** subtracts the price (or cost) of what you buy from your checking account. Visible or invisible?

A **credit card** allows users to buy things through a personal loan. Visible or invisible?

**Electronic payment** is a way to pay for things using your phone or computer and the Internet. Visible or invisible?

A **check** is a written order to a bank to pay money to a person or a business. Visible or invisible?
