Overview

The following correlation features the knowledge and skills that students are introduced to in JA Capstone Programs and how they correspond to Illinois Core Standards. The correlation is not meant to be exhaustive, nor is it intended to infer that any one resource will completely address any given standard. It is designed to show how JA BizTown® and JA Finance Park® will enhance or complement efforts to meet educational standards.

**JA BizTown** encompasses important elements of work readiness, entrepreneurship, and financial literacy, providing students with a solid foundation of business, economics, and free enterprise education. Through daily lessons, hands-on activities, and active participation in a simulated community designed to support differentiated learning styles, students develop a strong understanding of the relationship between what they learn in school and successful participation in an economy. JA BizTown helps prepare students for a lifetime of learning and academic achievement.

The program content augments students’ core curriculum in social studies, English language arts, and mathematics. Throughout the program, students use critical-thinking skills to learn about key concepts as they explore and enhance their understanding of free enterprise.

**JA Finance Park** lessons address fundamental business and economic concepts, explore career interests and opportunities, and develop work-readiness skills. The lessons also provide a highly relevant learning opportunity to “model with mathematics,” in which students apply mathematics to solve problems arising in everyday life. After weeks of classroom preparation, students experience a simulation (either on site or virtually) where they put their newly found knowledge and skills to use.

The **JA Finance Park** program provides two curriculum implementation options. Lessons are offered in a traditional classroom presentation format designed for middle-grade students and in a Project-Based Learning (PBL) format created for high school students. Both provide educators a method of delivery that will best meet the needs of their students.

| **Unit 1:** You must have money to spend money. Students need to understand this fundamental concept of earning and spending if they are to grasp the importance of sound personal finance. This unit introduces students to bank services and practices that will help them to be successful in *JA BizTown* and in life. | **Objectives:** The students will:  
- Extrapolate services offered by financial institutions  
- Complete a bank account application  
- Demonstrate an ability to endorse a paycheck  
- Complete a deposit ticket  
- Maintain a check register correctly  
- Describe the consequences of insufficient funds  
- Write and sign checks  
- State the benefit of an interest-earning savings account  
- Explain how money in a savings account grows  
- Explore the differences between checks, debit cards, and credit cards  
- Explain how money changes hands when a debit card is used  
- Demonstrate use of a check register to record a debit purchase | **Grade 4**

| **Unit 3:** Citizens learn how their interests and skills can lead to exciting careers. They have an opportunity to assess their own skills and interests and to see what kinds of jobs are available at JA BizTown. They have an opportunity to fill out a job application and experience the job interview process. | **Objectives:** The students will:  
- Recognize their interests and skills  
- Explain the relevance of interests and skills in career exploration and planning  
- Distinguish the differences among the four primary career types: people, ideas, data, and things  
- Categorize STEM careers into different types  
- Demonstrate appropriate workplace behaviors  
- Define resume, job interview, and applicant  
- Complete a job application  
- Model appropriate business greetings

## Unit Description

**Unit 3: Debit and Credit**

Students compare financial institutions and their services. Through discussion and a game activity, they weigh the advantages and disadvantages of debit and credit. Students also examine the role that credit scores and credit reporting have on personal finances.

## Key Learning Objectives

**Objectives:**

The students will:

- Define financial institutions and identify the services they provide
- Examine debit and credit cards and their use
- Explain the benefits and common pitfalls of credit cards
- Explain the benefits of debit cards
- Define credit score and describe how it influences the ability to get credit and borrow money

## Unit Description

### Unit 4: Budget+

Students recognize the importance of spending wisely to achieve financial success and the value of creating and maintaining a budget.

### Unit 5: Simulation and Debriefing

Students participate in the JA Finance Park simulation. They put into action all they have learned in the classroom by making important spending decisions and maintaining a balanced budget. Following their simulation experience, students participate in a reflective assessment.

## Key Learning Objectives

**Objectives:**

**The students will:**
- Categorize spending by needs and wants
- Compare teen and adult spending patterns
- Determine which categories belong in a budget
- Relate the need to save money to meet goals
- Prepare a budget using goals and income

**Objectives:**

**The students will:**
- Create a family budget using hypothetical life situations
- Make saving and investment decisions
- Reflect on their simulation experience

Students recognize the fundamental role of income in their personal finances and the factors that affect income and take-home pay. Through Project-Based Learning (PBL), students understand how the decisions they make about education and careers have an impact on their potential income and quality of life.

Students explore savings and compare investments as part of their overall financial planning. They also examine risk and how insurance may help protect savings from both planned and unplanned events.

PaCE  
A student should be exposed to a finance literacy unit in a course or workshop.
