A Correlation between the
Common Core State Standards,
Nevada Academic Content Standards and
Junior Achievement Programs

Overview

Junior Achievement programs reinforce the value of workforce readiness, entrepreneurship, and financial literacy while providing opportunities to develop cross-disciplinary knowledge and skills. This multidisciplinary approach helps students connect information across social studies disciplines such as economics, geography, history, government, and civics while incorporating mathematical concepts and reasoning, and language arts skills.

In this document, Junior Achievement elementary school programs are correlated to the Revised Nevada Academic Content Standards for social studies for grades K-5 as well as the Common Core State Standards in English/Language Arts and Mathematics.

This list is not meant to be exhaustive or intended to suggest that a JA program will completely address any given standard, but is designed to show how it can enhance or complement efforts to do so. The flexibility of the programs and supplementary materials allow specific content or skills to be addressed in depth by the teacher and/or business volunteer as needed.

JA Elementary School Programs

JA Ourselves® uses storybook characters in read-aloud and hands-on activities to introduce the role people play in an economy. Through engaging, volunteer-led activities, young students learn about individual choices, money, the importance of saving and giving, and the value of work.

JA Our Families® explains how family members' jobs and businesses contribute to the well-being of the family and of the community. The program introduces the concept of needs and wants and explores the ways families plan for and acquire goods and services.

JA Our Community® uses posters and games to offer practical information about businesses and the many jobs those businesses offer in a community. Students explore production methods through a simulation game, and they learn about taxes, decision making, and how money flows in an economy.

JA Our City® featuring Cha-Ching introduces students to financial literacy and learning objectives for third-grade social studies, including how people manage their money and the importance of economic exchange within a city.

JA Our Region® introduces students to entrepreneurship and how entrepreneurs use resources to produce goods and services in a community. Students solve problems by weighing risks and rewards.

JA Our Nation® provides practical information about the need for employees who can meet the demands of the 21st century job market, particularly high-growth, high-demand jobs. By program's end, students will understand the skills, especially in science, technology, engineering, and math that will make their futures brighter.

JA More than Money® introduces students to financial literacy and entrepreneurship, and to social studies learning objectives that include money-management skills, goods and services, and global markets.

### Session One: All Kinds of Families

The students discover how families are alike and different and how they can work together to create a strong economy for the neighborhood.

**Objectives:**

- Begin to understand the similarities and differences between families
- Recognize the importance of businesses in neighborhoods

- **Nevada Social Studies Standards**
  - SS.1.12. Describe ways in which students and families are alike and different across cultures.
  - SS.1.15. Describe and give examples of how all people, not just official leaders, play important roles in the community.

- **Common Core ELA**
  - Reading Literature RI.1.1, RI.1.3-4, RI.1.7,9,10
  - Reading Foundations RF.1.1-4
  - Writing W.1.2,5,8
  - Speaking & Listening SL.1.1-2, SL.1.4-5
  - Language L.1.1-2, L.1.4

- **Common Core Math**
  - Mathematical Practices 8

### Session Two: Money for Needs and Wants

Students become aware that all families need food, clothing, and shelter to live and must earn money to pay for these needs.

**Objectives:**

- Describe the difference between needs and wants
- Explain that families must earn money for the things they need and want

- **Nevada Social Studies Standards**
  - NA

- **Common Core ELA**

### Session Three: Businesses All Around the Neighborhood

Students learn how the needs and wants of people in a neighborhood create an opportunity for entrepreneurs to start businesses.

**Objectives:**

- Define entrepreneur, goods, and services
- Interpret map symbols
- Identify the goods or services businesses provide

- **Nevada Social Studies Standards**
  - SS.1.18. Compare and contrast the different ways people work to improve the community.

- **Common Core ELA**

## Session Descriptions

### Session One: Earn, Save, Spend, and Donate
Knowing we have four choices with money helps people reach personal goals and dreams and helps keep cities alive and healthy.

**Objectives:**
The students will be able to:
- Describe the four choices we have with money.
- Define deposits and withdrawals.

**Nevada Social Studies Standards:**

**Common Core ELA:**
- Reading for Information

  - 1-8

### Session Two: Invisible Money
Students learn about the different forms of money and how people use them to pay for goods and services.

**Objectives:**
The students will be able to:
- Define goods and services.
- Explain how people spend money.
- Recognize methods of payment and whether they are readily visible or invisible.

**Nevada Social Studies Standards:**
SS.3.27. Describe the difference between saving and spending

### Session Three: How Do I Become an Entrepreneur?
When entrepreneurs create businesses, they help keep cities alive and healthy.

**Objectives:**
The students will be able to:
- Define entrepreneur, producer, and consumer.
- Explain the need for a business plan.
- Discuss the ways in which entrepreneurs help a city.

**Nevada Social Studies Standards:**
SS.3.24. Identify how people use natural resources, human resources, and physical capital to produce goods and services to trade around the world.

**Common Core ELA:**
- Reading for Information
