Overview

Junior Achievement programs offer a multidisciplinary approach – connecting information across social studies disciplines such as economics, geography, history, government, and civics while incorporating mathematical concepts and reasoning and language arts skills.

In this document, Junior Achievement programs are correlated to the proposed Nevada Social Studies Standards and Grade Level Expectations for grades 6-8 as well as the Employability Skills For Career Readiness Standards, Financial Literacy Expectations and the Common Core State Standards in English/Language Arts and mathematics.

This list is not meant to be exhaustive or intended to suggest that a JA program will completely address any given standard, but is designed to show how it can enhance or complement efforts to do so. The flexibility of the programs and supplementary materials allow specific content or skills to be addressed in depth by the teacher and/or business volunteer as needed.

JA Middle Grades Programs

JA Economics for Success® provides practical information about personal finance and the importance of identifying education and career goals based on a student’s skills, interests, and values.............Page 3

JA Global Marketplace® Blended Model introduces students to the global marketplace and the ways in which countries buy and sell from each other. Through completion of this program, students will gain an understanding of producers and consumers in the interconnected global market.................................................................Page 5

JA It’s My Business!® Blended Model provides middle school students an opportunity to experience the initial steps necessary to start a business. New program content provides an authentic entrepreneurial experience for students, with each session building up to a product-pitch competition.................................................................Page 9

JA It’s My Future® Blended Model offers middle school students practical information to help prepare them for the working world. Students will develop the personal-branding and job-hunting skills needed to earn a job.................................................................Page 11

### Session Five: Trade Barriers

Students explore the types of restrictions that governments place on international trade. They learn about tariffs, quotas, subsidies, and standards and how these barriers affect governments, businesses, and customers.

**Objectives:**
The students will be able to:
- Define examples of trade barriers
- Analyze the consequences of trade barriers on businesses, employees, and customers
- Explain why balance of trade matters to businesses, customers, and employees

**Social Studies**
- SS.6-8.WGGS.25 Investigate a current global issue and propose a course of action to solve it.
- SS.6-8.WGGS.33 Explain and evaluate how economic policies impact individuals, businesses, government structures, and international organizations.
- SS.6-8.WGGS.35 Investigate the impact of global trade policies on nations and their citizens.
- SS.6-8.EUSH.43 Investigate the effects of U.S. foreign economic policy both nationally and globally (across early U.S. history.)

**Information Literacy**
1.B.3 Judges the quality of decisions in terms of the accuracy and completeness of the information on which they were based.
2.B.3 Assembles facts, opinions, and point of view as appropriate in one’s own work.
7.A.2 Uses a variety of sources covering diverse perspectives to resolve an information problem or question.

### Session Six: Currency

Students explore the concept of international currencies. They learn about variable exchange rates, currency converters, and how to compare the prices of products from around the world.

**Objectives:**
The students will be able to:
- Define currency and exchange rate
- Recognize that different countries have different forms of currency
- Recognize that each currency has a different value, which is determined through a variable exchange rate

**Social Studies**
- SS.6-8.WGGS.34 Assess the economies of various nations based on trade, resources, labor, monetary system, and other factors.
