Overview

The following correlation features the knowledge and skills that students are introduced to in JA Capstone Programs and how they correspond to the Iowa Academic Standards. The correlation is not meant to be exhaustive, nor is it intended to infer that any one resource will completely address any given standard. It is designed to show how JA BizTown® and JA Finance Park® will enhance or complement efforts to meet educational standards.

JA BizTown encompasses important elements of work readiness, entrepreneurship, and financial literacy, providing students with a solid foundation of business, economics, and free enterprise education. Through daily lessons, hands-on activities, and active participation in a simulated community designed to support differentiated learning styles, students develop a strong understanding of the relationship between what they learn in school and successful participation in an economy. JA BizTown helps prepare students for a lifetime of learning and academic achievement.

The program content augments students’ core curriculum in social studies, English language arts, and mathematics. Throughout the program, students use critical-thinking skills to learn about key concepts as they explore and enhance their understanding of free enterprise.

JA Finance Park lessons address fundamental business and economic concepts, explore career interests and opportunities, and develop work-readiness skills. The lessons also provide a highly relevant learning opportunity to “model with mathematics,” in which students apply mathematics to solve problems arising in everyday life. After weeks of classroom preparation, students experience a simulation (either on site or virtually) where they put their newly found knowledge and skills to use.

The JA Finance Park program provides two curriculum implementation options. Lessons are offered in a traditional classroom presentation format designed for middle-grade students and in a Project-Based Learning (PBL) format created for high school students. Both provide educators a method of delivery that will best meet the needs of their students.

## Unit Description

Unit 2: Students explore their role as citizens of a community. They are introduced to the concept of the circular flow of money and goods in an economy. They define basic economic concepts and discuss the impact of taxes and philanthropy.

## Key Learning Objectives

**Objectives:**

The students will:

- Define various vocabulary terms
- Explain how good citizens have a sense of responsibility to others and to their community
- Identify goods, services, and resources (human, natural, and capital)
- Demonstrate the circular flow of an economy
- Discover the function of businesses in producing goods and services
- Define scarcity and learn more about free enterprise
- Identify the three basic economic questions (what, how, and for whom to produce)
- Understand why people pay taxes
- Define gross pay and net pay
- Calculate tax by multiplying with decimals
- Differentiate between public goods and services and private goods and services
- Give examples of philanthropy

| **Unit 3:** Citizens learn how their interests and skills can lead to exciting careers. They have an opportunity to assess their own skills and interests and to see what kinds of jobs are available at JA BizTown. They have an opportunity to fill out a job application and experience the job interview process. | **Objectives:** The students will:  
- Recognize their interests and skills  
- Explain the relevance of interests and skills in career exploration and planning  
- Distinguish the differences among the four primary career types: people, ideas, data, and things  
- Categorize STEM careers into different types  
- Demonstrate appropriate workplace behaviors  
- Define resume, job interview, and applicant  
- Complete a job application  
- Model appropriate business greetings  
- Demonstrate proper interview skills | Grade 4

| **Unit 4: Budget+**                       | This unit provides an opportunity for students to set financial goals, experience budgeting, and compare sample budgets before they are confronted with the financial responsibilities of being and adult. Lessons focus on classifying income and expenses and staying with a plan. In each of the PBL lessons, integration of technology is required. During the final lesson, students explain the value of planning their spending and maintaining a balanced budget. | **Objectives:** The students will:  
  - Categorize spending by needs and wants  
  - Determine which categories belong in a budget  
  - Distinguish between different kinds of budgets  
  - Prepare a budget using goals and income | Grades 9-10

| **Unit 5: Simulation and Debriefing** | Students participate in the *JA Finance Park* simulation. They put into action all they have learned in the classroom by making important spending decisions and maintaining a balanced budget. Students then use the knowledge and skills gained from the *JA Finance Park* lessons to create a portfolio and presentation that answer the following driving question: What do I need to do today to accomplish what I want in the future? | **Objectives:** The students will:  
  - Create a family budget using hypothetical life situations  
  - Make saving and investment decisions  
  - Demonstrate understanding of the importance of making smart financial decisions now that will last throughout their lifetimes  
  - Articulate thoughts and ideas effectively using oral, written, and nonverbal communication skills in a variety of forms and contexts  
  - Demonstrate originality and creativity  
  - Build confidence, self-esteem, and teamwork skills | **Grades 9-10**
