A Correlation:
Louisiana Academic Standards and
Junior Achievement
Middle School Programs

Updated July 2019

Social Studies Standards
Education for Careers
Journey to Careers

Junior Achievement USA®
One Education Way
Colorado Springs, CO 80906
Overview

Junior Achievement programs offer a multidisciplinary approach that connects learning across social studies disciplines, such as economics, geography, history, government, and civics, while incorporating mathematical concepts and reasoning and language arts skills.

In this document, Junior Achievement programs are correlated to the Louisiana Academic Standards for Social Studies, Work Readiness and the Common Core Standards for English Language Arts (ELA) and Mathematics. When an Extended Learning Opportunity within the curriculum directly supports an academic standard, the letters ELO will appear superscripted next to the standard.

This list is not meant to be exhaustive or intended to suggest that a JA program will completely address any given standard, but is designed to show how it can enhance or complement efforts to do so. The flexibility of the programs and supplementary materials allow specific content or skills to be addressed in depth by the teacher and/or business volunteer as needed.

JA Middle Grades Programs

JA Economics for Success® provides practical information about personal finance and the importance of identifying education and career goals based on a student’s skills, interests, and values.

JA Global Marketplace® Blended Model introduces students to the global marketplace and the ways in which countries buy and sell from each other. Through completion of this program, students will gain an understanding of the role of producers and consumers in the interconnected global market.

JA Inspire is more than a career fair, it brings together the business community and local schools and is designed to help launch middle school students into their futures: high school, college, and careers beyond.

JA It's My Business® encompasses entrepreneurship curriculum for students in grades six, seven, and eight. Students are encouraged to use critical thinking to learn entrepreneurial skills that support a positive attitude as they explore and enhance their career aspirations.

JA It’s My Business® Blended Model provides middle school students an opportunity to experience the initial steps necessary to start a business. New program content provides an authentic entrepreneurial experience for students, with each session building up to a product-pitch competition.

JA It’s My Future® provides practical information about preparing for the working world while still in middle school.

JA It’s My Future® Blended Model offers middle school students practical information to help prepare them for the working world. Students develop the personal-branding and job-hunting skills needed to earn a job.

| **Session Three: Global Trade** | Social Studies  
7.11.2 Explain how economic interdependence developed between regions of the United States and with foreign Countries.  
8.3.3 Apply knowledge of geography skills and terms to read and interpret a map.  
8.7.2 Evaluate the role and importance of Louisiana ports and products in the international economy. | Grade 6  
RI.6.4  
W.6.4  
SL.6.1-2  
SL.4  
L.6.1-6 | Mathematical Practices  
2-3  
6-7 |
| Students learn that businesses trade in order to obtain products and services that customers want or need. Students will learn about imports and exports, examine the ways technology has improved international trade, and participate in a global trade game.  
**Objectives:**  
The students will be able to:  
- Identify reasons why countries trade  
- Demonstrate that countries benefit more from trade than from trying to meet all their own needs  
- Apply key terms related to trade.  
- Describe how improvements in technology can influence international trade | | |

| **Session Four: Why Countries Specialize** | Social Studies  
7.11.2 Explain how economic interdependence developed between regions of the United States and with foreign Countries.  
8.3.3 Apply knowledge of geography skills and terms to read and interpret a map.  
8.9.1 Analyze the role of specialization in Louisiana’s economy. | Grade 6  
RI.6.1  
RI.6.4  
RI.6.7  
SL.6.1-2  
L.6.1  
L.6.3-4  
L.6.6 | Mathematical Practices  
1-2  
4-7 |
| Students learn that modern countries cannot provide all the products and services that their people want and need. Therefore, businesses in different countries specialize by focusing their efforts on specific resources or producing smaller parts of a product. Students look at examples of specialized global manufacturing, discuss how it affects trade, and consider the trade-offs of interdependence.  
**Objectives:**  
The students will be able to:  
- Define specialization  
- Analyze examples of international trade to explain why modern countries cannot provide for all of their wants and needs  
- Show how events and decisions in one country have a causal relationship with, and produce an effect on, customers in another country | | |

| Students explore the concept of international currencies. They learn about variable exchange rates, currency converters, and how to compare the prices of products from around the world. | **Objectives:**  
The students will be able to:  
- Define currency and exchange rate  
- Recognize that different countries have different forms of currency  
- Recognize that each currency has a different value, which is determined through a variable exchange rate | | |
| **Session Seven: Global Workforce** | **Journey to Careers**  
JC 1.3. Students will be able to demonstrate an understanding of the relationship between coursework, school activities, community activities, and career clusters.

</tbody>
</table>
## Session Details

### Session Four: Testing the Market

Students learn about the importance of obtaining market feedback about new product ideas. They will examine various survey question types and determine whether questions yield useful product feedback, and then practice developing survey questions in groups.

**Objectives:**
The students will be able to:
- Discuss the importance of market research in the product development process
- Describe multiple types of survey questions

### Session Five: Design and Prototype

Students learn about product design and the prototype process. Each student will create a product sketch to show the features and explain the purpose of his or her product.

**Objectives:**
The students will be able to:
- Represent a product idea and its features by using rough sketches and drawings
- Recognize sketches as an important first step in the prototype process

### Session Six: Seek Funding

Students learn how to plan and deliver a pitch presentation with the intent of attracting potential investors. In a mock competition, groups will pitch their product idea to guest judge(s) who will award teams with ceremonial startup funds.

**Objectives:**
The students will be able to:
- Describe the elements that make a strong pitch presentation
- Work together to create and deliver a product pitch for potential funding

## Session Two: Career Clusters

| Objectives:          |                         |                |                                          |                                 |
|----------------------|-------------------------|----------------|------------------------------------------|                                 |
| Students explore career clusters and identify jobs for additional research. They also recognize the value of and need for all jobs. |                |                |                                          |                                 |
|                       |                        |                | Grade 6 CC.1.2.6.A,G,J,K,L,CC.1.5.6.A,C,D,G | JC.1.1 JC.1.2 JC. 2.2 JC.5.2     |
|                       |                        |                | Grade 7 CC.1.2.7.G,J,K,L,CC.1.5.7.A,C,D,G | Communication Teamwork           |
|                       |                        |                | Grade 8 CC.1.2.6.G,J,K,L,CC.1.5.8.A,C,D,G |                                 |

## Session Three: High-Growth Careers

| Objectives:          |                         |                |                                          |                                 |
|----------------------|-------------------------|----------------|------------------------------------------|                                 |
| Students learn the four factors to consider in choosing a job, and they take a close look at some high-growth career fields. |                |                |                                          |                                 |
|                       |                        |                | Grade 6 CC.1.2.6.A,B,CC.1.5.6.A,B,C,D,F  | JC.1.1 JC.1.2 JC. 2.2 JC.5.2     |
|                       |                        |                | Grade 7 CC.1.2.7.A.B,CC.1.5.7.A,B,C,D,F  | Communication Teamwork           |
|                       |                        |                | Grade 8 CC.1.2.6.A,B,CC.1.5.8.A,B,C,D,F  |                                 |

## Session Four: Career Mapping

| Objectives:          |                         |                |                                          |                                 |
|----------------------|-------------------------|----------------|------------------------------------------|                                 |
| Students explore how to use life experiences to develop work skills and how to map a path to employment goals. |                |                |                                          |                                 |
|                       |                        |                | Grade 6 CC.1.2.6.A-B,CC.1.5.6.A,B,C,D,F  | JC.1.3                          |
|                       |                        |                | Grade 7 CC.1.2.7.A-B,CC.1.5.7.A,B,C,D,F  |                                 |
|                       |                        |                | Grade 8 CC.1.2.8.A-B,CC.1.5.8.A,B,C,D,F  |                                 |

# JA It’s My Future Blended Model

## Session Details | Louisiana Academic Standards | Common Core ELA
--- | --- | ---
**Session One: My Brand**
Students learn that they have their own personal brand and that the brand they build today will reflect on them in the future. They examine well-known logos to learn how individuals and companies create their brands and build their reputations. They assess their personal characteristics to define their own brands and then develop logos to represent themselves.

**Objectives:**
The students will be able to:
- Describe the elements of a brand
- Recognize the ability of personal branding to build a positive reputation, for their personal life as well as for their future career
- Design a logo that expresses their personal brand

**Education For Careers**
6. b. Utilize surveys to identify individual assets, interests, aptitudes, talents and occupational abilities to determine careers areas in which the individual may be well suited.

**Session Two: Career Paths and Clusters**
Students are introduced to the 16 career clusters and the pathways through them. They take a career interest survey and learn about potential jobs within their preferred clusters. They then share job information with other members of the class and discuss the importance of all jobs within a community.

**Objectives:**
The students will be able to:
- Define careers cluster.
- Identify jobs in specific career clusters to explore further
- Recognize the interconnectivity and value of all types of jobs

**Education For Careers**
1. b. Identify & use resources that will provide information regarding post-secondary school options

**Journey to Careers**
5.2. Students will be able to utilize printed material to access career information.

**Session Three: High-Growth Careers**
Students learn about the importance of being aware of which fields are growing and which are declining when making decisions about their own careers. They play a game that introduces information about high-growth job fields.

**Objectives:**
The students will be able to:
- Identify specific careers that are forecast to have high-growth rates
- Consider a variety of factors when selecting a career

**Journey to Careers**
6.2. Students will identify post-secondary options in relationship to the career clusters.

| **Session Four: Career Mapping**  
Students learn how early experiences can build transferable skills that contribute to future job success. Students look at the lives of celebrities and their paths to success, focusing on early experiences. They learn about career maps by examining a sample and then creating their own.  
**Objectives:**  
The students will be able to:  
- Identify jobs in specific career clusters that they would like to explore further  
- Plan significant milestones they need to reach to earn a particular job | **Education For Careers**  
3.c. Compose and complete various documents required for seeking employment.  
**Journey to Careers**  
JC 1.3. Students will be able to demonstrate an understanding of the relationship between coursework, school activities, community activities, and career clusters. | Grade 6

| **Session Five: On the Hunt**  
Students are introduced to the basics of looking for, and applying and interviewing for a job. They play a game in which they must identify two truths and a myth about the job search process. They also learn the fundamentals of creating a resume and engage in simulation in which they identify appropriate skills for various jobs and decide upon the right section of a resume to highlight those skills.  
**Objectives:**  
The students will be able to:  
- Recognize basic job-hunting techniques, including looking for a job, applying, interviewing, and listing references  
- Recognize the importance of personal presentation and making a good impression, on paper and in person.  
- Recognize the basic construction of a resume and skills that should be highlighted on a resume. | **Education For Careers**  
1.g. Begin developing a portfolio of information related to post-secondary education options and useful for employment purposes.  
7.b. Develop job interview skills. | Grade 6

| **Session Six: Soft Skills**  
Students learn about the differences between technical and soft skills and why both are essential for keeping a job. Students will also complete a soft skills self-evaluation to determine which skills they already have and which they can work toward. Finally, they will role-play situations that require strong soft skills.  
**Objectives:**  
The students will be able to:  
- Define and differentiate between technical skills and soft skills  
- Identify specific soft skills they already possess and those they need to improve | **Education For Careers**  
11.a. Learn the soft skills that are important for success in the workplace.  
12. a. Identify soft skills that the individual currently possesses and the skills that need to be improved. | Grade 6
