Overview

In this document, Junior Achievement programs are correlated to the New Mexico Content Standards, Benchmarks, and Performance Standards for social studies for grades K-12 as well as the Common Core State Standards in English/Language Arts and mathematics.

Junior Achievement programs offer a multidisciplinary approach – connecting information across social studies disciplines such as economics, geography, history, government, and civics while incorporating mathematical concepts and reasoning and language arts skills.

This list is not meant to be exhaustive or intended to suggest that a JA program will completely address any given standard, but is designed to show how it can enhance or complement efforts to do so. The flexibility of the programs and supplementary materials allow specific content or skills to be addressed in depth by the teacher and/or business volunteer as needed.

JA Elementary School Programs

JA Ourseves® uses compelling stories read aloud by the volunteer, along with hands-on activities to demonstrate helping, working, earning, and saving.

JA Our Families® introduces students to the intersection of entrepreneurship and first-grade social studies learning objectives, including how family members’ jobs and businesses contribute to the well-being of the family.

JA Our Community® explores the interdependent roles of workers in a community, the work they perform, and how communities work.

JA Our City® introduces students to the intersection of financial literacy and third-grade social studies learning objectives, including the characteristics of cities and how people and businesses in cities manage their money.

JA Our Region® introduces students to entrepreneurship and how entrepreneurs use resources to produce goods and services in a community. Students solve problems by weighing risks and rewards.

JA Our Nation® provides practical information about businesses’ need for individuals who can meet the demands of the job market, including high-growth, high-demand jobs. Further, it introduces the concept of globalization of business as it relates to production materials and the need for students to be entrepreneurial in their thinking to meet the requirements of high-growth, high-demand careers worldwide.

JA More than Money® teaches students about earning, spending, sharing, and saving money, and businesses they can start or jobs they can perform to earn money.

JA Middle Grades Programs

JA America Works® provides students with examples of how business and entrepreneurship affected the economic development of the United States during the 19th century.

JA Economics for Success® provides practical information about personal finance and the importance of identifying education and career goals based on a student’s skills, interests, and values.

JA Global Marketplace® provides practical information about the global economy and its effect on the students’ lives.
JA It’s My Business!® encompasses entrepreneurship curriculum for students in grades six, seven, and eight. Students are encouraged to use critical thinking to learn entrepreneurial skills that support positive attitudes as they explore and enhance their career aspirations.

JA It’s My Future™ provides practical information about preparing for the working world while still in middle school.

High School Programs

JA Be Entrepreneurial® introduces students to the essential components of a practical business plan, and challenges them to start and entrepreneurial venture while still in high school.

JA Career Success™ equips students with the tools and skills required to earn and keep a job in high-growth career industries.

JA Company Program® analyzes and explores personal opportunities and responsibilities within a student-led company. Twelve required, volunteer-led meetings.

JA Economics® examines the fundamental concepts of micro-, macro-, and international economics.

JA Exploring Economics® fosters lifelong skills and knowledge about how an economy works, including micro-, macro-, personal, and international economics.

JA Job Shadow™ prepares students to be entrepreneurial thinkers in their approach to work. Students will acquire and apply the skills needed in demanding and ever-changing workplaces.

JA Personal Finance® focuses on: earning money; spending money wisely through budgeting; saving and investing money; using credit cautiously; and protecting one’s personal finances.

JA Titan® introduces critical economics and management decisions through an interactive simulation.
