

## Monsanto Data Scientist

Today you will use data science to determine which crop to plant in which field.

### **DURING BUSINESS START UP, COMPLETE THE FOLLOWING.**

1. Remain in your business until the Opening Town Meeting to help with business start-up. Your business needs everyone's help before it opens.
2. Attend any meetings your CEO or adult volunteer call.
3. Practice reading the prepared TV interview script. KPLR 11 will send an employee for you when it is time for the interview.
4. Using the iPad and your Field Case Manual, learn about what it takes to grow a successful crop.

### **DURING THE REST OF THE DAY, COMPLETE THE FOLLOWING.**

1. During the day, you walk around JA BizTown with the iPad, gathering information about each field. You will enter data into an Excel spreadsheet to compare what crop should be planted into which field.
2. When you have made your decision you will enter it into the spreadsheet.
3. KPLR will send an employee for you when it is time for the TV interview.

### **AT THE END OF THE DAY**

1. Clean up your area. Return the iPad to a JA staff member.
2. Assist with any other business clean-up. Place any items not sold back in plastic bags.

**Congratulations on a job well done!**
