

Monsanto Research Scientist

Today you will use chemistry to extract DNA and make Little Sprouts to fill customer orders.

DURING BUSINESS START UP, COMPLETE THE FOLLOWING.

1. Remain in your business until the Opening Town Meeting to help with business start-up. Your business needs everyone's help before it opens.
2. Attend any meetings your CEO or adult volunteer call.
3. **DO NOT PLAY WITH ANY OF THE EQUIPMENT!** A JA BizTown staff member will come and show you how to use equipment.

DURING THE REST OF THE DAY, COMPLETE THE FOLLOWING.

1. During the day, you will extract DNA from strawberries and assemble Little Sprouts to fill customer orders. Make sure you use proper safety: wear your glasses, and lab coat.
2. **How to extract DNA.**
 - a. Take the order form from the Sales Associate.
 - b. Follow the instructions on the counter to extract DNA.
 - c. Staple candy, DNA sheet, to the little bag with DNA and deliver to the customer if they didn't want to watch.
3. **How to make Little Sprouts**
 - a. Take the order form from the Sales Associate.
 - b. Follow the instructions on the counter.
 - c. Deliver Little Sprout to the customer if they chose not to wait.

AT THE END OF THE DAY

1. Clean up the area.
2. Assist with any other business clean-up.

Congratulations on a job well done!
