

Thomas H. Paluszynski

Vice President- Morgan Stanley

Currently running a business for Morgan Stanley in the newly developing field of Socially Responsible / Impact investing, educating and serving clients in the Philadelphia area about being socially responsible with their investment choices.

Prior to Morgan Stanley the last twenty-one years was spent in a Regional Institutional sales position helping insurance companies, banks, credit unions and asset managers administer their investment portfolios.

As a divorced father of two fine young men and no longer spending time around the ice rinks of Eastern United States and Canada. My time is now flush with volunteer opportunities to fulfill my own socially responsible outlook. As a Board member for fifteen plus years with Junior Achievement of New Jersey and participating in events with Home Cook Heroes, Gift of Life House, Philabundance and Aid for Friends, I realize the exponential impact one can have as an active board member in addition to being a volunteer.

Hobbies include hockey, Formula One and traveling for both. Running and yoga helps keep me fit.
